Station W9YT Confirming 2xSSB QSO October 27 1973

1116 GMT 5 9 7 MHz My ISSB No. 856

Dear Hs or Mr Hss-person. Your electromagnetic eruption were as outstanding as a dead mouse in a bowl of mush in Room 6, Hotel Le Pirate, in Marigot, on this delightfully beautiful Caribbean Isle 210 miles east and a hair south of San Juan, Puerto Rico. My Swan Cygnet, fed by a My-Coin 2kW/PEP vertical was shaken to its grommets, and to commemorate this outstanding and historic moment we are HEREBY you this incredibly beautiful and chintzy diploma. Direct from our home/station, K6UE/2, 378 Morris Ave., A-6, Elizabeth N J 07208. 73, until my next "sultcase" DXpedition,

John
